We're pleased to present you Reaching Souls International's 2010 Annual Report. In 2010 the Lord grew this ministry both in people receiving Christ as Savior (3,653,247) and in donated income (up 16%). Since 1986 we've been working our mantra of *Nationals Reaching Nationals*. And in 2010, we reached a few cumulative milestones: 10,000 pastors trained, 10,000 new churches started, and we crossed the threshold of over 15,000,000 salvation decisions!

Reaching Souls measures success in many ways, including: number of salvation decisions, baptisms, new churches, legitimate reporting, stewardship, cost per salvation decision, and income growth. Ultimately reaching the greatest amount of souls for Christ in the most efficient way possible with the highest level of integrity is our goal.

Reaching Souls strives to conduct business according to the highest ethical principles and ensure accuracy, validity and reliability in all that we report. We recognize that how we conduct our ministry is just as important as what we accomplish.

On behalf of our staff and our Board of Directors, we thank you for your faithful prayer support and generous giving. God has worked through you to help make it all happen. Please join us in giving the Lord all of the Glory for what He has done in 2010.
